

Kailash Mansarovar Yatra On Full Moon 2026 (July):

The Kailash Mansarovar Yatra is a sacred pilgrimage that draws devotees and spiritual seekers from around the world, primarily from the Hindu, Buddhist, Jain, and Bon faiths. The journey involves traveling to Mount Kailash and Lake Mansarovar, both of which are located in the remote and majestic landscapes of southwestern Tibet.

For Hindus, the Kailash Mansarovar Yatra is one of the most revered and spiritually profound pilgrimages. It is a divine journey to Mount Kailash (6,638 meters / 21,778 feet), considered the sacred abode of Lord Shiva and Goddess Parvati. Nearby lies the serene Lake Mansarovar (4,590 meters / 15,060 feet), believed to have been created in the mind of Lord Brahma and thus named "Mansarovar" (Manas – Mind; Sarovar – lake).

According to ancient Hindu scriptures, Mount Kailash is the cosmic axis—the center of the universe (axis mundi)—where the heavens meet the earth. It is surrounded by layers of mythological and spiritual symbolism that transcend time, culture, and geography. Completing a circumambulation (parikrama) of Mount Kailash is believed to cleanse one of sins and lead to spiritual liberation (moksha).

Clarification on the Kailash Mansarovar Yatra 2026 Route:

Traditionally, the Kailash Mansarovar Yatra is operated via the Rasuwagadhi–Kyirong route. However, due to recent flood washed away the Rasuwagadi border crossing Friendship Bridge, the journey is currently being operated through the Tatopani–Kodari–Nyalam–Saga route.

For the **2026 Yatra**, the route will depend on the decision of the Chinese authorities regarding border access.
